### The Power Of Microcurrent Technology

Microcurrent in aesthetics is commonly described as “**facial toning** or **non surgical face lifting**” due to the dramatic lifting effect that microcurrent has on facial muscles and facial contours

### CACI Signature Non-Surgical Facial Toning

#### How Does It Work?

Microcurrent impulses will lift and tone the facial muscles and the neck area, while improving skin elasticity and reducing the appearance of fine lines and wrinkles. This gives a more youthful, fresh appearance and glow.
